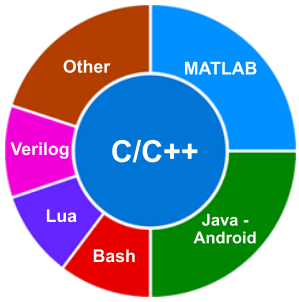
Programming



OS Preference
GNU/Linux ★★★★★
Bare Metal ★★★★☆
Unix-like ★★★☆☆
Windows ★★☆☆☆

Tools
Torch, R, Matlab, git, IntelliJ IDEA, Photoshop, TeX, Xilinx Vivado, SPICE, Synopsys ASIP Designer, Office, REAPER

Most Proud Of
Top 5% of my class ✓
Organized a 1500+ participant conference ✓
Raised over € 10k for student NGOs ✓
Served in the Military ✓

Languages
N, C2, B2, B1

Education

2010 - 2016 **M. Eng. in Electrical & Computer Engineering**
Aristotle University of Thessaloniki, Greece
GPA: 8.51/10 "Excellent", top 5% of 243
Specialization Electronics and Computer Engineering
Main subjects: Microelectronics, Microprocessors, Control Theory, Operating Systems, Software Engineering, Networks & Databases

Research

02/16 - 06/16 **Master Thesis** KU Leuven, Belgium
Efficient Hardware Mapping of LSTM Neural Networks for Automatic Speech Recognition

- Developed, trained and tested an LSTM architecture in Torch 7
- Optimized for hardware by modeling fixed-precision arithmetic, network connection pruning and coarse activation functions in MATLAB
- Modified an ASIP architecture for LSTMs in Synopsis ASIP Designer, achieving energy savings up to 80%

Supervisors: Prof. dr. ir. Marian Verhelst, Ir. Bert Moons

09/15 - 01/16 **Graduate Student Researcher** York University, Canada
Development of a Signal Detector for Nanopore-based DNA Sequencing

- Developed event-detection algorithms in C for automated DNA sequencing from data gathered from an Oxford-Nanopore MinION sensor
- Implemented, tested and deployed on an ARM-FPGA architecture (Xilinx ZYNQ) using Verilog and High Level Synthesis
- Demonstrated realtime behavior and large energy savings

Supervisor: Prof. Sebastian Magierowski

Experience

07/16 - 11/16 **Software Developer** UnifyID, San Francisco, CA, USA
Designed and developed the company's Android application by implementing its REST API, Amazon AWS connectivity, crypto and user interface.

08/14 - 08/15 **Web Developer** DatAnalysis, Thessaloniki, Greece
Designed, developed and managed a website of a construction company on Drupal 7 and an e-commerce website on Magento 1.9.

07/14 - 12/14 **Electrical Engineering Internship** SELI - AEGEK CJV, Thessaloniki, Greece
Configured and maintained PLC-based machinery, medium/low voltage transmission lines, transformers and circuitry used in the construction of Thessaloniki's metro.

Volunteer Experience

05/13 - 04/14 **Project Coordinator** ECE Student Conference 7, Thessaloniki, Greece
Led a group of 20 to organize the 7th panhellenic conference for ECE students, with 50+ presentations and 1500+ participants.

10/12 - 10/14 **Vice-President of Fundraising** Local BEST Group, Thessaloniki, Greece
Led and motivated a group of 40, managing and coordinating the organization of various international events, seminars and competitions for engineering students.
